The Go Red For Women movement is in its 10th year of fighting heart disease and stroke in women, but the fight is far from over.

More than 627,000 women’s lives have been saved from heart disease and stroke thanks to the Go Red For Women movement and events such as the Garden State Go Red For Women Luncheon – one of the premier women’s events annually in New Jersey and one of the top Go Red For Women events in the country the past eight years.

Go Red For Women is the American Heart Association’s national movement to end heart disease and stroke in women – the No. 1 and No. 4 killers of women. We are committed to the fight, for as long as it takes. The Garden State Go Red For Women Luncheon is the annual celebration of the Go Red For Women movement, sponsored nationally by Macy’s and Merck & Co., Inc., and celebrating its 10th anniversary in 2013. The luncheon is a social-education event featuring morning education sessions, connection and networking, a reception and lavish silent auction, as well as a luncheon program and moving stories and testimonials. The event is annually attended by 400 to 500 of New Jersey’s most influential women, and men, in business, industry, health, education and civic affairs.

Shout Louder, Stand Stronger, Demand Change
Women, it’s time to stand together in the fight for our lives. Because heart disease and stroke are our No. 1 killer and No. 4 killers affecting more women than men. Because heart disease and stroke are more deadly than all forms of cancer combined. Because women we love … mothers, daughters, sisters, associates and friends … are dying and many more are impacted every day.

Make it your mission to WEAR RED and join us at the 11th Annual Garden State Go Red For Women Luncheon on Monday, May 13, 2013 for what will be a life-affirming, inspiring and powerful day.

TOGETHER WE CAN END HEART DISEASE AND STROKE. Women Go Red!
